East Wing Of Grecian Army Is Entrapped

Toll In German Slain and Wounded Reported Enormous: No Contact Made Yet With British Forces

(By The Associated Press)

Adolf Hitler's blitzkrieg armies swept through the Balkans like a tornado today, and some military observers said the end of the four-day-old conflict was almost in sight.

Striking with tempestuous fury, the Germans captured the Aegean seaport of Salonika, forced the surrender of the trapped east wing of the Greek army, estimated at 300,000 men before the hostilities began, and drove westward across Yugoslavia to within 15 miles of a junction with Italian troops in Albania.

TO RELIEVE STRIKE STRAIN

Conviction that strikes which hamper defense production are intolerable stems from the fact they obviously threaten public welfare. Failure to recognize visited relatives in Cortland Wednesday. this on management's part is punishable by government seizure of management's prerogatives; management cannot refuse to cooperate with the government ir defense production. There is no means of dealing with labor in the same situation.

While union leaders never admit they are not as zealous'y devoted to the people's interest as management always claims to be when challenged, the fact remains that the effect of disputes between labor and management is as bad as though both sides were undermining national welfare. This is the foremost fact in the strike problem. Whatever the cause, the effect is 100 per cent bad.

Contrary to labor baiters, there is no important popular sentiment for cracking down on organized labor. If the government were to lose sight of the fact the present war is largely the struggle of individual producers to retain their freedom from exploiters of all breeds and colors, including politicians in colored shirts, it would be a national catastrophe. It is important, nevertheless, that the strike situation

The idea is too late and possibly too hopeful. but if every contract let by the government for defense production contained an escape clause guaranteeing the employer whatever extra wage cost he might need to pay to assure uninterrupted production, one thing at least would be plain. It would be the fact that employers don't refuse wage boosts because their hearts are cold, but because they must scrape up

National defense production is for all the people.

Management and labor are cooperating for the improvement of the general welfare. Each wants a little more than it can get, which is human. But each can get whatever it gets only from the people.

When management takes a defense order, entering when management takes a defense order, entering when management takes a defense order, entering members of the W. G. civil.

In this is tuberculosis. Tuberculosis. Tuberculosis. Tuberculosis. We are reminded by the scholarly and thoughtful address by Dr. Henry E. Each pamphlet desired, send 10 cents in coin, and a self-addressed envelope stamped with a three-cent stamp. When management takes a defense order, entering members of the W. G. club. into a contract based largely on estimated labor cost, then is confronted with a demand for higher wage rates, it can't pay the piper with IOU's. That is government's prerogative.

TO A SOLDIER IN YUGOSLAVIA

In the United States there is a fat kid in the funny paper who's always offering to ho'd some other kid's coat while that kid fights. Most Americans get the idea. It's not in what they call "good taste" for Americans to be offering to hold any coats in this fracas. If sometimes we have given that impression, try to overlook it. This is your fight. Americans just hope to give you a chance to shorten the odds against you.

Our writers, who tell us almost everything they find out and who find out almost everything, have been telling us for years there are no better fighters than the Yugoslavs. One writer, John Gunther, said in "Inside Europe," a book read by a lot of Americans a few years back, that the war he saw coming might be decided by what you did when the Germans more of you—say 5,000,000—the tide of battle might at the dry goods store of Brian Brothers. run north, not south.

SIZZLING PLATTER

TOU, Mr. and Mrs. Free Ameri-I can Citizen, have the world served up to you regularly on a sizzling platter.

You get the news, the happenings, the pictures, the facts-all fresh and hot from ten million sources. And with the news you get the "sauces" of editorial opinion, the "flavors" of the feature writers-all garnished with the cartoonists' wit and byplay.

Your paper doesn't poison you or drug you into the stupidity which effects the citizens of a dictatorship after THEY sample the food their platters contain. It feeds, stimulates, strengthens you.

How IS this? Why are YOU so favored?

YOU HAVE EARNED THIS DISH OF FREEDOM. In the first place, you are guaranteed freedom of speech and thought and opinion in your basic law. You have given every man the right to report what he sees and thinks-in a newspaper, a telegram, from a soap box or a radio station.

You have done this so you can hear ALL sides, then decide for yourself what course you will follow.

You have given NO MAN-not the businessman, not the minister, not the governor, not the President of the United States, not even the Supreme Court—the right to keep NEWS from you.

You have even kept the final power over the very newspapers which serve you!

YOU HAVE KEPT THIS POWER because truth is the oxygen of Democracy. Without truth, the system would expire. Newspapers must be free to provide this truth-free to criticize, free to praise, free to report with honesty.

This is FREEDOM. This is DE-MOCRACY. And most good Americans WANT IT THIS WAY!

Over 300 leading newspaper publishers join together to bring you this weekly message about the function of the press in a free nation. Newspaper Publishers Committee, 420 Lexington Ave., New York.

As Leather-Beaten Musto Made Last Stand In Ninth

His pulpy face leaking blood profusely, Tony Musto is pictured making his last stand against Champion Joe Louis as Referee Arthur Donovan steps in to stop the butchering in the ninth round, awarding Louis a technical knockout victory. Donovan's decision to halt the fight met with a mighty bray of indignation from the 20,000 fans who broke an all-time attendance record at the St. Louis arena.
